Next meeting: United Mines landfill meeting room, Thursday 9th July 2009, 6pm

Ref:	Topic	Item	Who?
		<ul style="list-style-type: none"> • Odourmaster unit will also assist in dust suppression in the tipping area <p>4. Scavenging birds</p> <ul style="list-style-type: none"> • Heli-kite has not been used recently due to wet weather. • Hawk flying has increased to weekend cover. • acoustic systems are currently being researched. <p>Some members of the group were worried that if the birds are scared off the landfill, they are likely to visit Carharrack.</p> <p>Liaison group agreed to a trial of propane guns. Action: Site to trial</p> <p>5. Litter</p> <ul style="list-style-type: none"> • Mobile litter fence has been moved to Phase 4 where tipping is now taking place. • Fences are moved daily if required depending on wind direction. SH handed the members of the group an operational map of the site. 	
3	Odour complaints	<ul style="list-style-type: none"> • SITA Cornwall helpdesk received 10 odour complaints in March and 10 in April. • 	SH
4	Education	<ul style="list-style-type: none"> • LB, SITA Cornwall's Education Officer made the group aware of the materials recycling facility which SITA operates in Bodmin. Community groups and schools are invited to visit the facility free of charge and travel reimbursements are available. LM will mention the facility in the Parish magazine. • SITA Cornwall is planning to hold another United Mines landfill open day, similar to last year's event, during the summer. There will be tours of the facility, staff on hand to answer any questions and information available about the facility. The group welcomed the event. The event will take place on Friday 7th August – to be advertised in United Mines community newsletter, press release, HWRC posters and parish newsletters. One member of the group requested for the tour transport to be more comfortable and for the booking system to improve. 	LB LB GW

5	Closure of United Mines	<ul style="list-style-type: none"> SH notified the group that the SITA are still working towards closing the site in October 2010 in line with the current planning permission. When the site closes on this date there will be void remaining and the restoration profile will differ from the original. A formal planning application will be made to Cornwall Council to vary the restoration plan. The draft plan will be available for the liaison group to comment on at the next liaison group meeting. 	SH GP
6	AOB	<ul style="list-style-type: none"> LM handed the group members a document he had written entitled 'Concerned, Carharrack, Cornwall' which raised concerns about the United Mines landfill and the recent events at the HWRC regarding glycerine. SH to chase up live complaint regarding noise from gas engines. One member of the group was worried that extracting water from Hicks Mills stream for use on the haul road was disturbing the river bed and muddying the water. IM had previously noticed this and confirmed that it is caused by cows further upstream rather than SITA's activity. The EA were asked whether all complaints raised at weekends were verified by the EA. SHa and MN confirmed that only some complaints are verified by the EA but MN also noted that complaints were considered to be substantiated as the site was problematic. VB asked whether Cornwall Council enforces penalties if SITA fails to comply with the contract. SH explained that the permit is regulated by the EA and the contract is regulated by CC. SITA receives a final deduction from its payment 	LM SH MN SHa VB SH
